EXPERIENCE

IBM | Gen AI Developer

May 2025 – July 2025

- **Engineered** and deployed scalable AI-driven applications using LLMs, resulting in a **15% increase in user engagement** through personalized content delivery.
- **Optimized** backend workflows by implementing asynchronous processing, reducing API response latency by **20%**.
- **Standardized** code quality by conducting peer reviews and modular architecture, improving maintainability by **30%**.

IGI (Publisher) | Author for Book Chapter

2025

- **Authored** "Transforming the Financial Market using AI-generated Personalized Content," published in *"Intersecting NLP and FinTech Innovations"*.

PROJECTS

STOKPOT | Next.js, Inngest, Nodemailer, MongoDB, TradingView API

2025

- **Architected** a full-stack stock analysis platform featuring real-time visualization via TradingView widgets.
- **Orchestrated** automated workflows using **Inngest** and **Nodemailer** to schedule daily AI-summarized market news and personalized onboarding welcome messages.
- Enhanced performance by implementing **Server-Side Rendering (SSR)**, improving Initial Page Load speed by **40%**.

ENGRAM | React.js, MongoDB, Python, NLP, Machine Learning

2025

- **Developed** a personalized AI chat application that mirrors user personality by analyzing diary entries via an NLP pipeline.
- **Implemented** thematic analysis to allow the chatbot to adapt its linguistic tone to the user's emotional state.

SAFERROUTE | React Native, Firebase, Google Maps API

2025

- **Designed** a safety-focused navigation app for women with real-time crowd-sourced safety ratings.
- **Built** an SOS system with **<2 second latency** using Firebase Cloud Functions and automated SMS alerts.

WELL BEING+ | React Native, Firebase

2024

- **Integrated** real-time yoga posture correction for 50+ unique poses using pose estimation algorithms.
- **Developed** a sentiment-based music therapy engine, increasing daily active usage (DAU) by **25%**.
